Dear Mr. Pokras:

Thank you for giving me the opportunity to support your application for the "Free Computers Matching Gift Initiative".

As you will recall, NTR was able to provide computers and instruction for ten students who had had regular attendance at our Stetson (Middle School) Technology Club last year. This prospect of their own computer spurred the students' attendance and participation throughout the year. It was a most fitting reward.

I was especially pleased that you included the students' parents in the culminating event. All of them were pleased to be able to accompany their students to an event that signaled the youth's accomplishment. They were also grateful for the instruction.

I have had recent contact with many of the students and know that their computers are still serving them well.

I hope that your application for additional computers will be successful as we have re-started the Technology Club this year and would like to announce the same incentive.

Yours truly,

Luana G. Goodwin, LSW
Director, Community Development
